Emergency Alert System

The Emergency Alert System is operated by Safety and Security.

Safety is a top priority for Yeshiva University. One of the most important tools in an emergency, small or large, is timely communication. YU Alert is the emergency notification system that delivers time-sensitive emergency notifications via text, email and/or telephone to the YU community.

Registration

All active students, staff and faculty are automatically enrolled in the YU Alert system upon hiring or enrolling in courses. Your YU University email address and phone number, provided during the application or hiring process, is added to the system.

To update your preferences, confirm your mobile phone number, register supplemental contact information, update your contact information, or opt out of receiving messaging, log onto Inside Track, click on the Employee tab and scroll to "Personal Information."
